ALPHABET GAME

How to Play the Alphabet Game

The alphabet game is a great game for teaching your child the names and sounds of the letters of the Alphabet.

The game does not take too long so you can play a few times.

We have also included a blank playing board so if your child is just learning their letters and the sounds they make, you may want to play using only a handful of letters of the alphabet. In this case simply write the letters that you want to teach your child onto the blank board and play as per the instructions below.

Setting Up the Game

Materials Needed:

- Dice
- Small objects to use as game pieces. You can use buttons, pom poms or coins.

Playing the Alphabet Game:

1. Players will start by placing their game piece on Go.
2. The first player rolls the die and moves their game piece that many spaces.
3. The player must then identify the letter and say the sound that letter makes.
4. It is then the next player's turn. They follow the same steps as per steps 2 and 3 above.
5. The player to get the end of the game board first is the winner.
